

## Attended Posters – Sunday, 6 May 2007

### **P001-S OSTEOCLASTS SECRETE NON-BONE DERIVED SIGNALS THAT INDUCE BONE NODULE FORMATION**

K. Henriksen\*<sup>1</sup>, A. V. Neutzsky-Wulff<sup>1</sup>, C. Christiansen<sup>2</sup>, T. J. Martin<sup>3</sup>, M. A. Karsdal<sup>1</sup>

<sup>1</sup>Pharmacology, Nordic Bioscience, Herlev, <sup>2</sup>Center for Clinical and Basic Research, Ballerup, Denmark, <sup>3</sup>St. Vincent's Institute of Medical Research, Melbourne, Australia

### **P004-S THE EXTRACELLULAR MATRIX (ECM) COMPONENT PRELP (PROLINE/ARGININE-RICH END LEUCINE-RICH REPEAT PROTEIN) INHIBITS OSTEOCLASTOGENESIS**

M. Alamanou<sup>1</sup>, N. Rucci<sup>1</sup>, A. Rufo<sup>1</sup>, D. Heinegård<sup>2</sup>, A. Teti\*<sup>1</sup>

<sup>1</sup>Dept. of Experimental Medicine, University of L'Aquila, L'Aquila, Italy, <sup>2</sup>Dept. of Experimental Medical Science, Lund University, Lund, Sweden

### **P007-S SRC MEDIATED CBL-PI3KINASE INTERACTION REQUIRED FOR OSTEOCLAST FUNCTION**

A. Sanjay\*<sup>1</sup>, W. Horne<sup>2</sup>, R. Baron<sup>2</sup>

<sup>1</sup>Anatomy and Cell Biology, Temple University, Philadelphia, <sup>2</sup>Cell Biology, Yale University, New Haven, United States

### **P010-S HIGH-THROUGHPUT GENETIC EXPRESSION PROFILES AND PROTEOMICS APPROACHES FOR UNDERSTANDING THE BISPHOSPHONATE'S MODES OF ACTION ON BONE**

N. Bivi\*<sup>1</sup>, P. Picotti<sup>2</sup>, J. Berezczak<sup>3</sup>, M. Romanello<sup>1</sup>, F. Brancia<sup>3</sup>, D. Delneri<sup>4</sup>, G. Tell<sup>1</sup>, L. Moro<sup>5</sup>

<sup>1</sup>Department of Biomedical Sciences and Technologies, University of Udine, Udine, Italy, <sup>2</sup>Institute of Molecular Systems Biology, ETH Honggerberg, Zurich, Switzerland, <sup>3</sup>Shimadzu Research Laboratories, Shimadzu Corp., <sup>4</sup>Faculty of Life Sciences, University of Manchester, Manchester, United Kingdom, <sup>5</sup>Department of Biochemistry, Centre for the Study of Metabolic Bone Diseases, University of Trieste, Trieste, Italy

### **P013-S ZOLEDRONIC ACID RESISTANCE MECHANISMS OF OSTEOSARCOMA CELL LINES**

B. Ory\*<sup>1</sup>, G. Moriceau<sup>1</sup>, F. Rédini<sup>1</sup>, M. Rogers<sup>2</sup>, D. Heymann<sup>1</sup>

<sup>1</sup>LPRO, ERI 7, Nantes, France, <sup>2</sup>Bone Research Group, Institute of Medical Sciences, Aberdeen, United Kingdom

### **P016-S THE ACTIVIN A – FOLLISTATIN SYSTEM: POTENT REGULATOR OF EXTRACELLULAR MATRIX SYNTHESIS AND MINERALIZATION**

M. Eijken\*<sup>1</sup>, S. Swagemakers<sup>2</sup>, M. Koedam<sup>1</sup>, C. Steenbergen<sup>1</sup>, P. Derkx<sup>1</sup>, A. G. Uitterlinden<sup>1</sup>, P. J. van der Spek<sup>2</sup>, J. A. Visser<sup>1</sup>, F. H. de Jong<sup>1</sup>, H. A. P. Pols<sup>1</sup>, J. P. T. van Leeuwen<sup>1</sup>

<sup>1</sup>Department of Internal Medicine, <sup>2</sup>Department of Bioinformatics, ErasmusMC, Rotterdam, Netherlands

### **P019-S KINETIC ANALYSIS OF CONFORMATIONAL CHANGES IN FARNESYL PYROPHOSPHATE SYNTHASE INDUCED BY NITROGEN CONTAINING BISPHOSPHONATES**

J. E. Dunford\*<sup>1</sup>, K. L. Kavanagh<sup>2</sup>, M. J. Rogers<sup>3</sup>, U. Oppermann<sup>2</sup>, F. H. Ebetino<sup>4</sup>, G. Russell<sup>1</sup>

<sup>1</sup>Nuffield Department of Orthopaedic Surgery, <sup>2</sup>Structural Genomics Consortium, Oxford University, Oxford, <sup>3</sup>Bone Research Group, Aberdeen University, Aberdeen, United Kingdom, <sup>4</sup>New Drug Development, Proctor and Gamble, Mason, OH, United States

### **P022-S NO EVIDENCE OF ASSOCIATION BETWEEN CODING LRP5/6 POLYMORPHISMS AND BMD AND FRACTURE RISK IN THREE INDEPENDENT LARGE-SCALE POPULATION BASED STUDIES OF YOUNG AND ELDERLY MEN**

E. Grundberg\*<sup>1</sup>, M. Lorentzson<sup>2</sup>, E. M. Lau<sup>3</sup>, M. Karlsson<sup>4</sup>, D. Mellström<sup>2</sup>, A. Holmberg<sup>4</sup>, E. Orwoll<sup>5</sup>, H. Mallmin<sup>6</sup>, C. Ohlsson<sup>2</sup>, Ö. Ljunggren<sup>1</sup>, K. Åkesson<sup>4</sup>

<sup>1</sup>Department of Medical Sciences, Uppsala University Hospital, Uppsala, <sup>2</sup>Department of Internal Medicine, Center for Bone Research at the Sahlgrenska Academy, Göteborg, Sweden, <sup>3</sup>Hong Kong Orthopaedic and Osteoporosis Center for Treatment and Research, Hong Kong, China, <sup>4</sup>Department of Orthopaedics, Malmö University Hospital, Malmö, Sweden, <sup>5</sup>Department of Medicine, Bone and Mineral Research Unit at Oregon Health and Science University, Portland, United States, <sup>6</sup>Department of Surgical Sciences, Uppsala University Hospital, Uppsala, Sweden

### **P025-S IDENTIFICATION OF SEX-SPECIFIC EFFECTS OF TNFRSF11B POLYMORPHISMS ON THE RISK TO DEVELOP PAGET'S DISEASE OF BONE**

G. Beyens\*<sup>1</sup>, A. Daroszevska<sup>2</sup>, F. de Freitas<sup>1</sup>, E. Franssen<sup>1</sup>, F. Vanhoenacker<sup>3</sup>, L. Verbruggen<sup>4</sup>, H. G. Zmierzczak<sup>5</sup>, S. H. Ralston<sup>2</sup>, J. P. Devolgelae<sup>6</sup>, W. Van Hul<sup>1</sup>

<sup>1</sup>Medical Genetics, University and University Hospital of Antwerp, Antwerp, Belgium, <sup>2</sup>Molecular Medicine Centre, Western General Hospital, Edinburgh, United Kingdom, <sup>3</sup>Radiology, University Hospital of Antwerp, Antwerp, <sup>4</sup>Rheumatology, University Hospital of Brussels, Brussels, <sup>5</sup>Endocrinology and Metabolic Diseases, University Hospital of Ghent, Ghent, <sup>6</sup>Rheumatology, Saint-Luc University Hospital, Brussels, Belgium

**P028-S INTRINSIC BONE QUALITY IN FRAGILITY HIP FRACTURE PATIENTS: ALTERED MINERALISATION AND MICRODAMAGE ACCUMULATION**

J. S. Kuliwaba\*<sup>1</sup>, P. Sutton-Smith<sup>1</sup>, N. L. Fazzalari<sup>1</sup>

<sup>1</sup>Division of Tissue Pathology, Institute of Medical and Veterinary Science, Discipline of Pathology, The University of Adelaide, Adelaide, Australia

**P031-S EFFECT OF ONCE-YEARLY INFUSION OF ZOLEDRONIC ACID 5 MG IN POSTMENOPAUSAL WOMEN WITH OSTEOPOROSIS**

D. Black<sup>1</sup>, P. D. Delmas<sup>2</sup>, R. Eastell<sup>3</sup>, I. Reid<sup>4</sup>, S. Boonen<sup>5</sup>, J. A. Cauley<sup>6</sup>, P. Lakatos<sup>7</sup>, P. C. Leung<sup>8</sup>, Z. Man<sup>9</sup>, E. F. Eriksen<sup>10</sup>, P. Mesenbrink<sup>11</sup>, T. Hue<sup>1</sup>, B. Langdahl\*<sup>12</sup>, S. Cummings<sup>13</sup>

<sup>1</sup>Department of Epidemiology and Biostatistics, University of California, San Francisco, San Francisco, United States, <sup>2</sup>Department of Medicine, University Claude Bernard of Lyon, Lyon, France, <sup>3</sup>Metabolic Bone Centre, Northern General Hospital, Sheffield, United Kingdom, <sup>4</sup>Faculty of Medicine and Health Sciences, Auckland University, Auckland, New Zealand, <sup>5</sup>Center for Metabolic Bone Diseases, Leuven University, Leuven, Belgium, <sup>6</sup>Department of Epidemiology, University of Pittsburgh, Pittsburgh, United States, <sup>7</sup>Department of Medicine, Semmelweis University, Budapest, Hungary, <sup>8</sup>Department of Medicine, Chinese University of Hong Kong, Shatin, Hong Kong Special Administrative Region of China, <sup>9</sup>Department of Medicine, Centro TIEMPO, Buenos Aires, Argentina, <sup>10</sup>Department of Medicine, Novartis Pharma AG, Basel, Switzerland, <sup>11</sup>Biostatistics, Novartis Pharmaceuticals Corporation, East Hanover, United States, <sup>12</sup>Department of Medicine, University of Aarhus, Aarhus, Denmark, <sup>13</sup>Department of Medicine, University of California, San Francisco, San Francisco, United States

**P034-S IBANDRONATE-INDUCED BONE MINERAL DENSITY GAINS ARE RELATED TO VERTEBRAL ANTIFRACTURE EFFICACY**

S. Adami\*<sup>1</sup>, P. D. Miller<sup>2</sup>, K. M. Patel<sup>3</sup>, R. C. Schimmer<sup>4</sup>, R. Grant<sup>5</sup>, R. R. Recker<sup>6</sup>

<sup>1</sup>Department of Rheumatology, University of Verona, Verona, Italy, <sup>2</sup>Department of Medicine, Colorado Center for Bone Research, Lakewood, United States, <sup>3</sup>PDMB, <sup>4</sup>Medical Science, F. Hoffmann-La Roche Ltd, Basel, Switzerland, <sup>5</sup>Inflammatory and Bone Diseases, Hoffmann-La Roche Inc., Nutley, <sup>6</sup>Osteoporosis Research Center, Creighton University, Omaha, United States

**P037-S BONE MINERAL DENSITY RESPONSE TO 24 MONTHS OF TERIPARATIDE (RHPTH 1-34) IN PATIENTS WITH INADEQUATE RESPONSE TO PRIOR ANTIRESORPTIVE TREATMENT**

K. Brixen\*<sup>1</sup>, T. N. Nickelsen<sup>2</sup>, F. Marin<sup>3</sup>, C. Barker<sup>4</sup>, B. Obermayer-Pietsch<sup>5</sup>, C. C. Glueer<sup>6</sup>, J. Farrerons<sup>7</sup>, M. Audran<sup>8</sup>, S. Boonen<sup>9</sup>, R. Eastell<sup>10</sup>

<sup>1</sup>Dept of Endocrinology, Universitetshospital, Odense, Denmark, <sup>2</sup>Endocrine Research, Eli Lilly and Company Europe, Bad Homburg, Germany, <sup>3</sup>Endocrine Research, Eli Lilly and Company Europe, Madrid, Spain, <sup>4</sup>Dept. of Biostatistics, Eli Lilly and Company Europe, Windlesham, United Kingdom, <sup>5</sup>Dept of Endocrinology, Med. Universitaetsklinik, Graz, Austria, <sup>6</sup>Klinik fuer Diagnostische Radiologie, UKSH, Kiel, Germany, <sup>7</sup>Consultas Medicina Interna, Hospital Santa Creu I Sant Pau, Barcelona, Spain, <sup>8</sup>Service de Rhumatologie, Faculté de Médecine, Angers, France, <sup>9</sup>Dept of Pathophysiology, University of Leuven, Leuven, Belgium, <sup>10</sup>Metabolic Bone Centre, University of Sheffield, Sheffield, United Kingdom

**P040-S THE INFLUENCE OF A ONE-YEAR MODERATE INTENSITY SCHOOL-BASED PHYSICAL ACTIVITY PROGRAM ON BONE DENSITY, MUSCLE STRENGTH, BODY COMPOSITION AND PHYSICAL PERFORMANCE IN PRE-PUBERTAL GIRLS –DATA FROM THE PEDIATRIC OSTEOPOROSIS PREVENTION (POP) STUDY**

S. Stenevi-Lundgren\*<sup>1</sup>, R. M. Daly<sup>2</sup>, C. Linden<sup>1</sup>, M. K. Karlsson<sup>1</sup>

<sup>1</sup>Clinical and Molecular Osteoporosis Research Unit, Department of Clinical Sciences, Lund University, Malmö University Hospital, Malmö, Sweden, <sup>2</sup>Centre for Physical Activity and Nutrition Research, School of Exercise and Nutrition Sciences, Deakin University, Melbourne, Australia

**P041-S INCIDENCE OF NUTRITIONAL AND HEREDITARY RICKETS AMONG CHILDREN LIVING IN DENMARK**

S. Beck-Nielsen\*<sup>1</sup>, T. Jensen<sup>2</sup>, J. Gram<sup>3</sup>, K. Brixen<sup>4</sup>, K. Brusgaard<sup>5</sup>, B. Brock-Jacobsen<sup>6</sup>

<sup>1</sup>Department of Paediatrics, <sup>2</sup>Department of Environmental Medicine, University of Southern Denmark, Odense, <sup>3</sup>Department of Endocrinology, Ribe County Hospital, Esbjerg, <sup>4</sup>Department of Endocrinology, <sup>5</sup>Department of Clinical Genetics, <sup>6</sup>Department of Paediatrics, Odense University Hospital, Odense, Denmark

**P044-S OSTEOSPHERES: A NOVEL APPROACH FOR SCAFFOLD-ENHANCED EX VIVO OSTEOGENESIS**

J. S. Burns\*<sup>1</sup>, P. L. Rasmussen<sup>1</sup>, M. Kassem<sup>1</sup>

<sup>1</sup>Molecular Endocrinology and Metabolism, Odense University Hospital, Odense, Denmark

**P047-S ACTIVATED PLATELETS STIMULATE DIFFERENTIATION AND PROLIFERATION OF PRIMARY HUMAN BONE CELLS**

C. Clausen\*<sup>1</sup>, N. Ulrich<sup>2</sup>, O. Donatsky<sup>2</sup>, H. Nielsen<sup>2</sup>, K. Osther<sup>1</sup>

<sup>1</sup>Research and Development, Interface Biotech, Hørsholm, <sup>2</sup>Department of Oral and Maxillofacial Surgery, Hillerød Hospital, Hillerød, Denmark

**P053-S MECHANICAL AND MATERIAL PROPERTIES OF CORTICAL BONE FROM nNOS NULL MICE**

S. R. Goodyear\*<sup>1</sup>, R. J. van't Hof<sup>2</sup>, R. M. Aspden<sup>1</sup>

<sup>1</sup>Department of Orthopaedics, University of Aberdeen, Aberdeen, <sup>2</sup>Molecular Medicine Centre, Western General Hospital, Edinburgh, United Kingdom

**P056-S EFFECT OF TEMPERATURE AND FLUORIDE ON AMELOBLASTS IN VITRO**

A. Kalvik\*<sup>1</sup>, E. A. Riksen<sup>2</sup>, A. Hynne<sup>2</sup>, A. Lian<sup>2</sup>, B. M. Kvam<sup>2</sup>, P. Lyngstadaas<sup>2</sup>, J. E. Reseland<sup>2</sup>

<sup>1</sup>Department of Biomaterials, Department of Prosthodontics and Oral Research Laboratory,, <sup>2</sup>Department of Biomaterials and Oral Research Laboratory,, Faculty of Dentistry, University of Oslo, Norway, Oslo, Norway

**P059-S PROSTAGLANDINS DIFFERENTIALLY AFFECT OSTEOGENIC DIFFERENTIATION OF HUMAN ADIPOSE TISSUE-DERIVED MESENCHYMAL STEM CELLS**

M. Knippenberg\*<sup>1</sup>, M. N. Helder<sup>2</sup>, J. M. A. de Blicke-Hogervorst<sup>1</sup>, P. I. J. M. Wuisman<sup>2</sup>, J. Klein-Nulend<sup>1</sup>

<sup>1</sup>Oral Cell Biology, ACTA-UvA and Vrije Universiteit, <sup>2</sup>Orthopaedic Surgery, VU University Medical Center, Amsterdam, Netherlands

**P062-S BRIDGING OF RABBIT TIBIA NONUNION PROMOTED BY EXTRACORPOREAL SHOCKWAVE**

M. Q. Liu\*<sup>1</sup>, X. Guo<sup>1</sup>, C. C. Hui<sup>1</sup>, K. S. C. Kwong<sup>1</sup>, J. C. Y. Cheng<sup>2</sup>

<sup>1</sup>Department of Rehabilitation Sciences, the Hong Kong Polytechnic University, <sup>2</sup>Department of Orthopaedics & Traumatology, The Chinese University of Hong Kong, Hong Kong, Hong Kong Special Administrative Region of China

**P065-S ULTRASTRUCTURAL AND CHEMICAL ANALYSES OF APATITE CRYSTAL IN HARD TISSUE OF CONODONT FOSSIL**

H. Mishima\*<sup>1</sup>, M. Kakei<sup>2</sup>, T. Yasui<sup>3</sup>

<sup>1</sup>Department of Health Sciences, Kochi Gakuen College, Kochi, <sup>2</sup>Division of Oral Anatomy, School of Dentistry, Meikai University, Sitama, <sup>3</sup>Vice-Curator, The Yokogurayama Natural Forest Museum, Ochi, Japan

**P068-S TYPE OF PHYSICAL ACTIVITY AS A DETERMINANT OF BMC IN ADOLESCENT WOMEN: A 7-YEAR FOLLOW-UP**

E. Rautava\*<sup>1</sup>, M. Lehtonen-Veromaa<sup>1</sup>, H. Kautiainen<sup>2</sup>, O. J. Heinonen<sup>1</sup>, J. Viikari<sup>3</sup>, T. Möttönen<sup>3</sup>

<sup>1</sup>Physiology, University of Turku, Turku, <sup>2</sup>Med Care Ltd., Äänekoski, <sup>3</sup>Medicine, Turku University Central Hospital, Turku, Finland

**P071-S RELATIONSHIP BETWEEN WHOLE BODY, FOREARM AND AP SPINE DENSITY IN A POPULATION OF HEALTHY CHINESE ADOLESCENTS**

T. V. Sanchez\*<sup>1</sup>, J. M. Wang<sup>2</sup>, J. Liu<sup>3</sup>

<sup>1</sup>Research and Development, Norland-- a CooperSurgical Company, Socorro, United States, <sup>2</sup>Research and Development, Norland-- a CooperSurgical Company, <sup>3</sup>Department of Nuclear Medicine, PLA 304th Hospital, Beijing, China

**P074-S PATHOLOGICAL OA CHONDROCYTES ARE PRIMED FOR DESTRUCTION COMPARED TO THAT OF HEALTHY CHONDROCYTES BY EXCESSIVE INDUCTION OF AGGREGANASE ACTIVITY IN RESPONSE TO PRO-INFLAMMATORY CYTOKINES**

E. U. Sumer\*<sup>1</sup>, B. C. Sondergaard<sup>1</sup>, S. H. Madsen<sup>1</sup>, P. Qvist<sup>1</sup>, M. A. Karsdal<sup>1</sup>

<sup>1</sup>Research and Development, Nordic Bioscience Diagnostics, Herlev, Denmark

- P077-S BONE-LIKE HYDROXYAPATITE FORMATION IN HUMAN BLOOD**  
A. T. Titov\*<sup>1</sup>, P. M. Larionov<sup>2</sup>  
<sup>1</sup>Mineralogy, Institute of Geology and Mineralogy, <sup>2</sup>Medicine, Institute of Circulation Pathology, Novosibirsk, Russian Federation
- P080-S THE EFFECT OF RHBMP-4 INCORPORATED COLLAGEN HYDROGEL ON OSTEOGENESIS OF NON-DECORTICATED POSTERIOR SPINAL FUSION**  
X. Y. Wang\*<sup>1</sup>, X. Guo<sup>1</sup>, M. Q. Liu<sup>1</sup>, J. Y. C. Cheng<sup>2</sup>, Y. L. Mi<sup>3</sup>  
<sup>1</sup>Rehabilitation Sciences, The Hong Kong Polytechnic University, <sup>2</sup>Department of Orthopaedics and Traumatology,, The Chinese University of Hong Kong, <sup>3</sup>Department of Chemical Engineering,, The Hong Kong University of Science and Technology,, Hong Kong, China
- P083-S BONE TENDON JUNCTION REGENERATION WITH ARTICULAR CARTILAGE**  
M. W. N. Wong\*<sup>1</sup>, K. Tai<sup>1</sup>, K. Lee<sup>2</sup>, L. Qin<sup>1</sup>, K. Leung<sup>1</sup>  
<sup>1</sup>Orthopaedics and Traumatology, <sup>2</sup>Lee Hysan Research Laboratory, The Chinese University of Hong Kong, Hong Kong, Hong Kong Special Administrative Region of China
- P085-S HRT, POSTMENOPAUSAL OSTEOPOROSIS AND WEIGHT GAIN**  
A. Bazarra-Fernández\*<sup>1</sup>  
<sup>1</sup>ObGyn, Juan Canalejo University Hospital Trust, La Coruña, Spain
- P088-S INCREASED BONE REMODELING DUE TO DISUSE INCREASES TUMOR GROWTH**  
S. Blouin<sup>1</sup>, F. Hindre<sup>2</sup>, F. Bouchet<sup>3</sup>, M. F. Baslé<sup>1</sup>, D. Chappard\*<sup>1</sup>  
<sup>1</sup>INSERM, EMI 0335, <sup>2</sup>INSERM, U646, Faculté de Médecine, <sup>3</sup>Service de Médecine Nucléaire, CHU, Angers, France
- P091-S HEAVY METAL DEPOSITION IN PERIPROSTHETIC MINERALIZED BONE TISSUE: INVESTIGATION OF HIP ARTHROPLASTY WEAR DÉBRIS DEGRADATION UNDER DARKFIELD ILLUMINATION WITH PROTON INDUCED X-RAY EMISSION**  
B. Busse\*<sup>1</sup>, M. Hahn<sup>1</sup>, M. Niecke<sup>2</sup>, B. Jobke<sup>3</sup>, K. Püschel<sup>4</sup>, A. Katzer<sup>5</sup>  
<sup>1</sup>Center for Biomechanics, University Medical Center Hamburg-Eppendorf, <sup>2</sup>Institute of Experimental Physics, University of Hamburg, Hamburg, Germany, <sup>3</sup>Musculoskeletal Quantitative Imaging Research, Department of Radiology, UCSF-University of California, San Francisco, United States, <sup>4</sup>Institute of Legal Medicine, University Medical Center Hamburg-Eppendorf, <sup>5</sup>Orthoclinic Hamburg, Hamburg, Germany
- P094-S EVOLUTION OF PERI-ARTICULAR HAND BONE MINERAL DENSITY IN RHEUMATOID ARTHRITIS**  
F. Colson\*<sup>1</sup>, J. Menassa<sup>1</sup>, F. Coury<sup>1</sup>, E. Vignon<sup>1</sup>  
<sup>1</sup>Service de Rhumatologie, Centre Hospitalier Lyon-Sud, Pierre-Bénite, France
- P097-S DOES HISTORICAL FORMS OF HYPERPARATHYROIDISM STILL EXIST?**  
M. Diaconescu\*<sup>1</sup>, M. Glod<sup>2</sup>, I. Costea<sup>3</sup>  
<sup>1</sup>Fourth Surgical Clinic, University of Medicine and Pharmacy IASI, <sup>2</sup>Fourth Surgical Clinic, University of Medicine and Pharmacy "Gr T Popa" Iasi, <sup>3</sup>Fourth Surgical Clinic, University of Medicine and Pharmacy, Iasi, Romania
- P100-S OPG, RANK AND RANK LIGAND EXPRESSION IN THYROID LESIONS**  
M. Heymann\*<sup>1</sup>, A. Riet<sup>2</sup>, S. Battaglia<sup>2</sup>, J. Paineau<sup>3</sup>, D. Heymann<sup>2</sup>  
<sup>1</sup>EA3822-INSERM ERI7, Department of Pathology, <sup>2</sup>EA3822-INSERM ERI7, Faculty of Medicine, Nantes, <sup>3</sup>Centre Régional de Lutte Contre le Cancer, CRLCC, Saint-Herblain, France
- P103-S THE PREVALENCE OF THE OSSIFICATION OF POSTERIOR LONGITUDINAL LIGAMENT IN KOREAN**  
T. Kim<sup>1</sup>, K. Bae<sup>1</sup>, W. Uhm<sup>1</sup>, K. Joo<sup>1</sup>, T. Kim<sup>1</sup>, J. Jun\*<sup>1</sup>  
<sup>1</sup>The Hospital for Rheumatic Diseases, Hanyang University, Seoul, South Korea
- P106-S CALCIUM PYROPHOSPHATE DIHYDRATE (CPPD) CRYSTALLINE DEPOSITS IN THE KNEE: ARTHROSCOPIC, RADIOGRAPHIC AND THE SYNOVIAL FLUID STUDY**  
S. I. Kuzmanova\*<sup>1</sup>, P. T. Solakov<sup>1</sup>  
<sup>1</sup>University Clinic of Rheumatology, Medical University, Plovdiv, Bulgaria
- P109-S EFFECTIVE USE OF PAMIDRONATE IN PEDIATRIC PATIENTS WITH AVASCULAR NECROSIS FOLLOWING GLUCOCORTICOID THERAPY: 3 CASE REPORTS**

P. M. H. Miettunen\*<sup>1</sup>, R. Anderson<sup>2</sup>, G. Kiefer<sup>3</sup>, D. Parsons<sup>3</sup>

<sup>1</sup>*Pediatrics*, <sup>2</sup>*Oncology*, <sup>3</sup>*Orthopedics, University of Calgary and Alberta Children's Hospital, Calgary, Canada*

- P112-S THE ASSOCIATION OF RADIOGRAPHIC OSTEOARTHRITIS OF KNEE AND LUMBAR SPINE WITH PAIN: THE RESEARCH ON OSTEOARTHRITIS AGAINST DISABILITY (ROAD) STUDY**  
S. Muraki\*<sup>1</sup>, N. Yoshimura<sup>1</sup>, H. Oka<sup>1</sup>, A. Mabuchi<sup>1</sup>, Y. En-Yo<sup>2</sup>, M. Yoshida<sup>2</sup>, A. Saiga<sup>2</sup>, T. Suzuki<sup>3</sup>, H. Yoshida<sup>3</sup>, H. Ishibashi<sup>4</sup>, S. Yamamoto<sup>4</sup>, H. Kawaguchi<sup>5</sup>, K. Nakamura<sup>5</sup>  
<sup>1</sup>*22<sup>nd</sup> Century Medical and Research Center, Tokyo University, Tokyo*, <sup>2</sup>*Orthopaedics, Wakayama Medical University, Wakayama*, <sup>3</sup>*Tokyo Metropolitan Institute of Gerontology*, <sup>4</sup>*Orthopaedics, Tokyo Metropolitan Geriatric Medical Center*, <sup>5</sup>*Orthopaedics, Tokyo university, Tokyo, Japan*
- P115-S RELEVANCE OF USING 99MTC-NTP 15-5 IN CHONDROSARCOMA IN VIVO IMAGING TO DETECT EARLY TUMOR RECURRENCE: DIAGNOSTIC APPLICATIONS TO ZOLEDRONATE-TREATED RATS**  
E. Miot-Noirault<sup>1</sup>, F. Gouin<sup>2</sup>, A. Vidal<sup>1</sup>, M. Rapp<sup>1</sup>, D. Heymann<sup>3</sup>, F. Redini\*<sup>3</sup>  
<sup>1</sup>*UMR 484 INSERM, Université d'Auvergne, Centre Jean Perrin, Rue Montalembert, Clermont-Ferrand*, <sup>2</sup>*Service d'Orthopédie, CHU Hôtel Dieu, Nantes*, <sup>3</sup>*EA 3822-INSERM ERI 7 Physiopathologie, Faculté de Médecine, Nantes Cedex 1, France*
- P118-S A PROSPECTIVE TWO YEARS FOLLOW-UP OF THORACIC AND LUMBAR OSTEOLYTIC VERTEBRAL FRACTURES CAUSED BY MULTIPLE MYELOMA TREATED WITH BALLOON-KYPHOPLASTY**  
P. Schleicher\*<sup>1</sup>, I. Melcher<sup>1</sup>, K. D. Schaser<sup>1</sup>, N. P. Haas<sup>1</sup>, R. Pflugmacher<sup>1</sup>  
<sup>1</sup>*Centrum für Muskuloskeletale Chirurgie, Charité Universitätsmedizin Berlin, Berlin, Germany*
- P121-S DEVELOPMENT OF AN IN VITRO MODEL TO INVESTIGATE JOINT OCHRONOSIS IN ALKAPTONURIA**  
L. Tinti<sup>1</sup>, P. J. M. Wilson\*<sup>1</sup>, J. P. Dillon<sup>1</sup>, B. Wlodarski<sup>1</sup>, A. Santucci<sup>2</sup>, W. D. Frazer<sup>3</sup>, J. A. Gallagher<sup>1</sup>, L. R. Ranganath<sup>3</sup>  
<sup>1</sup>*Human Anatomy and Cell Biology, University of Liverpool, Liverpool, United Kingdom*, <sup>2</sup>*Molecular Biology, University of Siena, Siena, Italy*, <sup>3</sup>*Clinical Chemistry, University of Liverpool, Liverpool, United Kingdom*
- P124-S EFFECT OF ANTI-TUMOUR NECROSIS FACTOR ALPHA (INFLIXIMAB) ON HUMAN OSTEOBLAST CELL VIABILITY IN PATIENTS WITH ACTIVE INFLAMMATORY BOWEL DISEASE: AN IN-VITRO STUDY**  
S. G. Veerappan\*<sup>1</sup>, M. Healy<sup>2</sup>, B. Walsh<sup>3</sup>, B. M. Ryan<sup>1</sup>, J. S. Daly<sup>4</sup>  
<sup>1</sup>*Gastroenterology, Adelaide and Meath Hospital*, <sup>2</sup>*Biochemistry*, <sup>3</sup>*Age Related, St.James's Hospital*, <sup>4</sup>*Biology, Royal College of Surgeons in Ireland, Dublin, Ireland*
- P127-S REGULATION OF PARATHYROID HORMONE-RELATED PROTEIN RELEASE AND EXPRESSION BY EXTRACELLULAR CALCIUM AND PHOSPHATE IN OSTEOBLAST PROGENITOR CELLS**  
M. Ahlstrom\*<sup>1</sup>, M. Pekkinen<sup>1</sup>, U. Riehle<sup>2</sup>, C. Lamberg-Allardt<sup>1</sup>  
<sup>1</sup>*Calcium Research Unit, University of Helsinki, Helsinki, Finland*, <sup>2</sup>*Institution of Biological Chemistry and Nutrition, University of Hohenheim, Stuttgart, Germany*
- P130-S MECHANOSENSITIVITY AND ELASTICITY OF BONE CELLS UNDER ROUND AND FLAT MORPHOLOGIES**  
R. G. Bacabac\*<sup>1</sup>, D. Mizuno<sup>2</sup>, C. F. Schmidt<sup>2</sup>, F. C. MacKintosh<sup>3</sup>, J. J. W. A. van Loon<sup>1</sup>, J. Klein-Nulend<sup>1</sup>, T. H. Smit<sup>4</sup>  
<sup>1</sup>*Oral Cell Biology, ACTA-Vrije Universiteit, Amsterdam, Netherlands*, <sup>2</sup>*Third Physical Institute, University of Göttingen, Göttingen, Germany*, <sup>3</sup>*Physics, Vrije Universiteit*, <sup>4</sup>*Physics and Medical Technology, VU University Medical Center, Amsterdam, Netherlands*
- P133-S NEW INSIGHTS INTO PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR GAMMA ACTION: STIMULATION OF HUMAN OSTEOBLAST DIFFERENTIATION**  
C. Bruedigam\*<sup>1</sup>, M. Eijken<sup>1</sup>, M. Koedam<sup>1</sup>, H. A. P. Pols<sup>1</sup>, J. P. T. van Leeuwen<sup>1</sup>  
<sup>1</sup>*Internal Medicine, Erasmus Medical Center, Rotterdam, Netherlands*
- P136-S OLEUROPEIN INDUCES OSTEOBLASTOGENESIS AND INHIBITS ADIPOGENESIS: EFFECT ON DIFFERENTIATION FROM OF BONE MARROW-DERIVED STEM CELLS**  
A. Casado\*<sup>1</sup>, R. Santiago<sup>1</sup>, I. Herrera<sup>2</sup>, A. Torres<sup>2</sup>, M. D. Castro<sup>3</sup>, G. Dorado<sup>4</sup>, J. M. Quesada<sup>5</sup>

<sup>1</sup>Unidad de Investigacion, <sup>2</sup>Servicio de Hematologia, Hospital Reina Sofia, <sup>3</sup>Quimica Analitica, <sup>4</sup>Bioquimica y Biologia Molecular, Universidad de Cordoba, <sup>5</sup>Unidad de Metabolismo Mineral, Hospital Reina Sofia, Cordoba, Spain

- P139-S (-)-EPIGALLOCATECHIN-3-GALLATE (EGCG) MODULATE OPG/RANKL/RANK IN MURINE BONE MARROW MESENCHYMAL STEM CELL AND OSTEOBLAST**  
C. Chen\*<sup>1</sup>, L. Kang<sup>2</sup>, S. Hung<sup>3</sup>, M. Ho<sup>4</sup>, J. Chang<sup>1</sup>, G. Wang<sup>1</sup>  
<sup>1</sup>Department of Orthopedics and Orthopedic Research Center, Kaohsiung Medical University, Kaohsiung, <sup>2</sup>Department of Obstetrics and Gynecology, National Chung Kung University, Tainan, <sup>3</sup>Department of Biological Sciences, National Sun Yat-Sen University, <sup>4</sup>Department of Physiology and Orthopedic Research Center, Kaohsiung Medical University, Kaohsiung, Taiwan
- P142-S EXPOSURE OF MC3T3-E1 OSTEOBLAST-LIKE CELLS TO ARACHIDONIC ACID, DOCOSAHEXAENOIC ACID AND PARATHYROID HORMONE MODULATES OSTEOPROTEGERIN AND RANKL SECRETION**  
M. Coetzee\*<sup>1</sup>, M. Haag<sup>1</sup>, M. C. Kruger<sup>2</sup>  
<sup>1</sup>Department of Physiology, University of Pretoria, Pretoria, South Africa, <sup>2</sup>Institute of Food, Nutrition and Human Health, Massey University, Palmerston North, New Zealand
- P145-S DECREASED OXIDATIVE CAPACITY AND INCREASED EXPRESSION OF PROAPOPTOTIC GENES IN MSC DURING AGEING IN VITRO**  
R. Ebert\*<sup>1</sup>, D. Schneider<sup>1</sup>, J. Meissner-Weigl<sup>1</sup>, S. Zeck<sup>1</sup>, F. Jakob<sup>1</sup>  
<sup>1</sup>Orthopedic Center for Musculoskeletal Research, University of Wuerzburg, Wuerzburg, Germany
- P148-S CAMKIBETA MRNA IS EXPRESSED IN THE GROWTH PLATE AND INHIBITS PROLIFERATION OF PRIMARY OSTEOBLASTS IN CULTURE**  
D. Fortunati\*<sup>1</sup>, M. E. Pedersen<sup>1</sup>, M. Nielsen<sup>1</sup>, T. Lekva<sup>2</sup>, S. H. Brorson<sup>3</sup>, F. P. Reinholt<sup>3</sup>, K. M. Gautvik<sup>4</sup>, R. Jemtland<sup>2</sup>  
<sup>1</sup>Dept. of Biochemistry, Institute of Basic Medical Sciences, University of Oslo, Oslo, Norway, <sup>2</sup>Endocrine Section, Dept. of Medicine, National University Hospital, Oslo, Norway, <sup>3</sup>Institute of Pathology, National University Hospital, Oslo, Norway, <sup>4</sup>Ullevaal University Hospital and Lovisemberg Hospital, Oslo, Norway
- P151-S MECHANICAL STIMULATION OF A SINGLE OSTEOCYTE INDUCE INTERCELLULAR CALCIUM WAVES THROUGH THE OSTEOCYTE NETWORK**  
G. Gu\*<sup>1</sup>, R. Lindqvist<sup>1</sup>, H. K. Väänänen<sup>1</sup>  
<sup>1</sup>Department of Anatomy, Institute of Biomedicine, University of Turku, Turku, Finland
- P154-S MODULATION OF THE RESORPTION SURFACE BY INHIBITORS CHANGES OSTEOBLAST ADHESION**
