

Name: Mariana Seijo

City: Buenos Aires, Argentina

Date of birth: 06/04/1983

Email: seijomarianita@gmail.com

Twitter handle: @seijomarianita

Studies: Medical of the Faculty of Medicine of the University of Buenos Aires

Specialization: osteology

Short bio:

I have trained as medical in the Faculty of Medicine of the University of Buenos Aires (UBA), I have made the Master in Clinical Effectiveness, trained in clinical research and epidemiology, and I have been part of research projects. I am a professor in the Department of Microbiology, Faculty of Medicine UBA and nursing career in Unit Hospital "Dr. César Milstein". I have sent summaries of the research projects that I have been part of for presentations to national congresses and international congresses. I have taken a postgraduate course in Osteology, a higher Course in General Medicine and a number of postgraduate technicians. As research training I have made an internship training in Spain in medicine translational. I have received difference awards. I have a total of 16 different publications. I have participated in activities of extension and training of human resources for teaching and research. Currently I am developing my doctoral career with a grant from the National Council of Scientific and Technical Research (CONICET) in Metabolic Bone Diseases Laboratory, Clinical Hospital, Immunology, Genetic and Metabolism Institute, CONICET, UBA.

What do you expect from this training?

I hope this training give to me and my professional training a solid knowledge of bone mineral metabolism and the possibility to working with different groups in mineral metabolism and other doctoral students too. I understand will allow me to access to take classes of a magnitude and importance and access to the training provided by professional experts in the subject that I could not access in any other way and that are essential in my career. I feeling that the participation and presentation of my work in this masterclass would provide me tools to improve my research work since in my presentation I will receive comments that contribute to the improvement.

Bonus question: What motivates you to get out of bed in the morning?

My daughter's smile

Work what I like
